

Nurtura User Flow & Storyboard

Complete process map of every screen, user interaction, and data flow — from landing page to authenticated dashboard.

Application Architecture

Nurtura is a React + Convex web app with full authentication, 6-step onboarding, and 13+ authenticated screens. Here's the complete user journey.

PRIMARY USER FLOW

RETURNING USER FLOW

ALL SCREENS (16 TOTAL)

SCREEN	ROUTE	AUTH	SCREEN	ROUTE	AUTH
Landing Page	/	Public	Medications	/medications	Protected
Login	/login	Public only	Schedule	/schedule	Protected
Sign Up	/signup	Public only	Messages	/messages	Protected
Onboarding	/onboarding	Protected	Care Providers	/care-providers	Protected

Recipient Detail	/care-recipients/:id	Protected	Subscription	/subscription	Protected
Log Activity	/care-log/new	Protected	Security	/security	Protected

NAVIGATION STRUCTURE (SIDEBAR)

GROUP	ITEMS
Main	Dashboard · Care Recipients · Log Activity
Manage	Medications · Schedule · Messages · Care Providers · Time Tracking
Account	Integrations · Subscription · Security (hidden in simplified nav / senior mode)
Footer	User avatar + name → dropdown: Settings, Integrations, Security, Theme toggle, Sign out

Phase 1 — Public Experience

Screens visible before authentication

1 Landing Page

/

Full marketing page — hero, features, device showcase, pricing, testimonials, FAQ, and CTA footer. Self-contained layout with its own nav (no PublicLayout wrapper).

SECTIONS (SCROLL ORDER)

- **Nav bar:** Nurtura logo (leaf icon) · "Log in" link · "Get Started" button (green)
- **Hero:** "Care, naturally" eyebrow → "The caregiving hub your family deserves" headline → descriptor text → "Start Free →" CTA + "Log In" secondary → trust badges (iPhone & iPad · Apple Watch · HIPAA Ready)
- **Hero image:** Family photo with floating "Care team synced — 3 family members connected" card
- **Device Showcase:** "Professional-grade tools, beautifully simple" — 3 iPhone/Watch mockups: Care Dashboard, Apple Watch Reminders, Medication Tracking
- **Features Grid:** "Everything you need for quality care" — 6 cards: Care Logging, Medication Tracking, Scheduling, Team Coordination, Time Tracking, Team Messaging
- **Testimonials:** "Loved by caregivers everywhere" — 3 testimonial cards
- **Pricing:** 3 tiers — Free (\$0), Plus (\$9.99/mo), Professional (\$24.99/mo)
- **CTA Section:** Final "Start your caregiving journey" block
- **Footer:** Links, social, legal

USER ACTIONS

ELEMENT	TYPE	DESTINATION
"Get Started" / "Start Free →"	NAV	/signup
"Log in"	NAV	/login
Pricing "Get Started" buttons	NAV	/signup

2 Sign Up

/signup

Account creation form with Nurtura branding. Green gradient blurs in background. Wrapped in PublicLayout with minimal header (logo only).

FORM FIELDS

FIELD	TYPE	REQUIRED	VALIDATION
Name	TEXT	Yes	Non-empty
Email	EMAIL	Yes	Valid email format
Password	PASSWORD	Yes	Min 6 characters

FLOW AFTER SUBMIT

- Submit → "Check your email" verification code screen appears inline
- User enters verification code → account created → redirect to /onboarding
- "Back to sign up" button available during verification
- "Already have an account? Sign in" link → /login

3 Login

/login

Sign-in form. Same visual style as signup — centered card, green gradient background blurs, Nurtura leaf icon header.

FORM FIELDS

FIELD	TYPE	REQUIRED
Email	EMAIL	Yes
Password	PASSWORD	Yes

USER ACTIONS

ELEMENT	TYPE	DESTINATION
"Sign In" button	AUTH	Convex auth → /onboarding or /dashboard
"Forgot password?"	ACTION	Password reset flow
"Sign up" link	NAV	/signup

GUARD LOGIC PublicOnlyRoute: If user is already authenticated → redirect to /dashboard. If auth'd but onboarding incomplete → redirect to /onboarding.

Phase 2 — Onboarding (6 Steps)

Protected route · No sidebar · Progress bar at top · Single-page component with step state

All 6 steps render within a single OnboardingPage component. A segmented progress bar (6 segments) fills green as the user advances. Each step animates in from the right (fade-in + slide-in). Back navigation available on all steps except Welcome.

0

Welcome — Role Selection

`/onboarding · step=0`

Entry point of onboarding. Nurtura leaf icon, "Welcome to Nurtura" heading, "Let's set up your caregiving hub" subtext. Two large selection cards for role.

COMPONENTS

- **Leaf icon** in green circle (16px padding, rounded-2xl)
- **"I am a..."** label
- **Professional Caregiver card:** Briefcase icon · "CNA, HHA, aide, or paid caregiver" desc · Green checkmark when selected
- **Family Caregiver card:** Users icon · "Caring for a loved one" desc · Green checkmark when selected
- **"Continue →" button** — disabled until role selected

STATE CHANGES

ACTION	TYPE	RESULT
Tap role card	SELECT	Sets role state ("professional" "family"), shows green check, enables Continue
"Continue"	NAV	setStep(1)

DATA STORED role: "professional" | "family"

"Your Profile" heading, "This helps your care team identify you" subtext. Three fields for identity info.

FORM FIELDS

FIELD	TYPE	REQUIRED	PLACEHOLDER
First Name	TEXT	Yes	"First name"
Last Name	TEXT	Yes	"Last name"
Phone	TEL	No	"(555) 123-4567"

NAVIGATION

ACTION	TYPE	RESULT
"← Back"	NAV	setStep(0)
"Continue →"	NAV	setStep(2) — disabled if first/last name empty

Eye icon + "Display & Accessibility" heading. "Let's make Nurtura comfortable for your eyes." Three interactive sections for visual preferences.

COMPONENTS

- **Age Group selector:** Two cards — "Under 65" | "65 or older" (has "Optimized for you" label). Selecting 65+ auto-sets text to Large + High Contrast ON + Senior Mode ON
- **Text Size:** 4 selectable cards: Small (14px) · Medium (16px) · Large (20px) · Extra Large (24px) — each shows "Aa" at that size. Live preview text below: "This is how text will appear in the app."
- **High Contrast toggle:** Switch component, "Bolder colors and sharper text" description. Accessibility icon.

LIVE BEHAVIOR

KEY DETAIL Text size and contrast changes apply **immediately** during onboarding (via AccessibilityContext useEffect hooks), so user sees real-time preview of their settings.

65+ AUTO Selecting "65 or older" triggers: textSize → "large", highContrast → true, seniorMode → true (simplifies nav, hides Account section in sidebar).

3 Who Are You Caring For?

/onboarding • step=3

Add first care recipient. "You can add more later." Four input sections plus a "Skip for now" link below the card.

COMPONENTS

- **Avatar selector:** 8 emoji buttons in a row: 🧓 👴 🧑 👩 👤 💜 🌻 🐾 — tapping selects (green ring + scale-up animation). Default: 👤
- **Name field:** Text input, placeholder "e.g. Mom, Dad, Sarah" — required to proceed
- **Type of Care:** 4 selectable cards in 2×2 grid — Senior Care (Stethoscope icon) · Disability (Accessibility icon) · Childcare (Baby icon) · General (Layers icon)
- **Conditions/Notes:** Optional text input, placeholder "e.g. Diabetes, mobility issues"
- **"Skip for now" link:** Below the main card — clears recipientName and advances to step 4

STATE & NAVIGATION

ACTION	TYPE	RESULT
"← Back"	NAV	setStep(2)
"Continue →"	NAV	setStep(4) — disabled if name empty
"Skip for now"	NAV	Clears name → setStep(4)

DATA STORED recipientName, careType:
"senior"|"disability"|"childcare"|"general", selectedEmoji,
conditions

AI chatbot introduction. Bot icon in green circle, "Meet Ivy, Your Care Assistant" heading. Simulated chat conversation plays automatically.

CHAT ANIMATION SEQUENCE

DELAY	MESSAGE	SENDER
0.5s	"Hi there! 🙋 I'm Ivy, your Nurtura assistant. I'll help you get set up today."	 Ivy
1.5s	"I can walk you through the app, answer questions about caregiving, and help you stay organized."	 Ivy
3.0s	"On the *Plus plan*, I'm available anytime you need quick help or care tips. On *Professional*, I'm here 24/7 — scheduling, care coordination, and deep support. 🌿"	 Ivy
4.5s	"Ready to finish setting up? Let's go! →"	 Ivy

VISUAL ELEMENTS

- **Chat bubbles:** Each message fades in + slides up. Bot avatar is green circle with leaf. Typing indicator (3 bouncing dots) shows before each new message.
- **Tier comparison cards:** Below chat — "Plus" card (MessageCircle icon, muted bg) and "Professional" card (Sparkles icon, green-tinted bg with green border)

Completion screen. Sparkles icon in green circle, "You're All Set!" heading, "Your Nurtura hub is ready" subtext. Feature summary + final CTA.

FEATURE SUMMARY CARDS

-  Log daily care activities — Tasks, meals, vitals, and notes
-  Track medications — Never miss a dose with reminders
-  Manage schedules — Shifts, appointments, and reminders
-  Coordinate with your care team — Keep everyone on the same page
-  Sync with your calendar & email — Connect Gmail, Outlook, and more in Settings
-  Chat with Ivy — Your AI care assistant is ready to help

FINAL ACTION

ACTION	TYPE	API CALLS
"Go to Dashboard →"	API	1. <code>profiles.create()</code> — saves role, name, phone, ageGroup, textSize, highContrast 2. <code>careRecipients.create()</code> — if recipient name provided 3. <code>profiles.completeOnboarding()</code> — marks onboarding done 4. Navigate to /dashboard

GUARD AFTER OnboardingGuard checks `profile.onboardingComplete`. Once true, user bypasses /onboarding and goes straight to /dashboard on future logins.

Phase 3 — Authenticated Experience

All screens wrapped in AppLayout (sidebar + header). OnboardingGuard enforced.

6

Dashboard

[/dashboard](#)

Main hub after onboarding. Time-aware greeting ("Good morning/afternoon/evening, {firstName}"), "Here's your care overview for today." + Log Activity button.

LAYOUT

- **4 Stat Cards (top row):** Care Recipients count · Today's Logs · Active Meds · Today's Schedule — each with colored icon
- **Ad Banner:** Leaderboard size — visible to free-tier users only
- **Care Recipients card:** List of recipients with emoji avatars → links to `/care-recipients/:id`. "Add Someone" if empty.
- **Today's Schedule card:** Upcoming tasks/appointments with recipient names, times, completion status. "Add Entry" if empty.
- **Recent Activity card (full width):** Latest 5 care logs across all recipients — type badge, timestamp, recipient name

ACTIONS FROM DASHBOARD

ELEMENT	DESTINATION
" + Log Activity" button	<code>/care-log/new</code>
Recipient row	<code>/care-recipients/:id</code>
"View All" (recipients)	<code>/care-recipients</code>
"View All" (schedule)	<code>/schedule</code>

7

Care Recipients

`/care-recipients`

List of all care recipients. Each shows emoji, name, care type. "Add Care Recipient" dialog with same fields as onboarding step 3.

ADD RECIPIENT DIALOG FIELDS

- Avatar emoji selector (8 options)
- Name (required text)
- Care Type dropdown: Senior / Disability / Childcare / General
- Conditions (optional text)

8

Care Recipient Detail

`/care-recipients/:id`

Individual recipient view — emoji avatar, name, care type, conditions. Quick links to log activity, view medications, and schedule for this recipient.

9

Log Activity

`/care-log/new`

Create a new care log entry. Preselects recipient if navigated from a recipient page (via ?recipient= query param).

FORM FIELDS

FIELD	TYPE	OPTIONS
Care Recipient	SELECT	Dropdown from user's recipients
Log Type	SELECT	Task · Vitals · Meal · Activity · Mood · Note — each with icon + color
Title	TEXT	Required
Notes	TEXTAREA	Optional
Mood (if type=mood)	SELECT	😊 Great · 😊 Good · 😐 Okay · 😞 Low · 😡 Bad

10 Medications

</medications>

Medication management. Lists all medications grouped by recipient. Toggle active/inactive status. Add medication dialog.

ADD MEDICATION DIALOG FIELDS

FIELD	TYPE	REQUIRED
Care Recipient	SELECT	Yes (preselected if from query)
Medication Name	TEXT	Yes
Dosage	TEXT	No
Frequency	TEXT	No
Time of Day	TEXT	No
Instructions	TEXT	No

11 Schedule

</schedule>

Today's schedule entries with completion toggle. Add new entries via dialog. Inline ad placement for free-tier users.

ADD SCHEDULE ENTRY FIELDS

FIELD	TYPE
Care Recipient	SELECT
Type (task/appointment/shift/reminder)	SELECT
Title	TEXT
Description	TEXT
Date	DATE
Start Time / End Time	TIME

12 Messages

/messages

Real-time messaging organized by care recipient. Select a recipient to view/send messages. Full-height chat layout with input at bottom.

COMPONENTS

- **Recipient selector:** Dropdown to choose which recipient's thread to view
- **Message list:** Scrollable area, messages with sender name + timestamp
- **Compose bar:** Text input + Send button (disabled if empty or no recipient selected)
- **Empty state:** MessageSquare icon + "Select a care recipient to start messaging"

13 Care Providers (MyChart/FHIR)

/care-providers

MyChart / FHIR integration for communicating with healthcare providers. Three views: Overview → Connect → Conversation. Plus & Pro tier only (locked for Free users).

VIEWS

- **Overview:** List of connected providers (name, specialty). "Connect Provider" CTA.
- **Connect:** Provider search/selection for FHIR connection setup.
- **Conversation:** Secure messaging thread with a specific provider.

TIER GATE Free tier users see a locked state with "Upgrade to Plus" CTA. Feature requires Plus (\$9.99) or Professional (\$24.99) subscription.

14 Time Tracking

/time-tracking

Clock in/out system for professional caregivers. Select recipient, start/stop timer. Displays active entry + history of past 30 entries.

ACTIONS

- **Clock In:** Select recipient → "Clock In" → starts timer. Shows active entry card.
- **Clock Out:** Stops active timer → entry saved to history.
- **History:** List of past entries with recipient, start/end time, duration.

Phase 4 — Account Management

Settings, Integrations, Subscription, and Security — accessible from sidebar or user dropdown

15

Settings

</settings>

Profile editing + display preferences. Same accessibility options from onboarding step 2, now editable anytime. Theme toggle (Light/Dark/System). Profile edit dialog for name/phone.

SECTIONS

- **Profile card:** Avatar initial, full name, role badge, "Edit Profile" button → dialog with first/last name + phone
- **Appearance:** Theme toggle (Sun/Moon icons), text size selector (4 options), high contrast switch
- **Quick links:** Integrations → /integrations, Security → /security
- **Sign Out:** Red "Sign Out" button (via Convex auth)

16

Integrations

</integrations>

Connect external calendar and email services. Each provider shows status (connected/not connected), connect/disconnect actions.

AVAILABLE PROVIDERS

PROVIDER	CATEGORY	ACTIONS
Google Calendar	Calendar	Connect (OAuth) · Disconnect · Refresh
Apple Calendar (iCal)	Calendar	Connect · Disconnect
Outlook Calendar	Calendar	Connect (OAuth) · Disconnect
Gmail	Email	Connect (OAuth) · Disconnect
Outlook Mail	Email	Connect (OAuth) · Disconnect

Three-tier pricing page with current plan highlighted. Feature comparison for each tier.

PLANS

PLAN	PRICE	KEY FEATURES
Free (Leaf icon)	\$0 forever	1 recipient · Basic logging · Med reminders · 7-day history
Plus (Sparkles icon) ★ Popular	\$9.99/mo	3 recipients · Unlimited logging · Ivy chatbot · Calendar sync · No ads
Professional (Crown icon)	\$24.99/ mo	Unlimited recipients · 24/7 Ivy · FHIR/MyChart · Priority support · Analytics

Security overview showing platform security features and compliance status. Informational — no user actions required.

SECURITY FEATURES DISPLAYED

- End-to-End Encryption (AES-256) — Active ✓
- SOC 2 Compliant Infrastructure — Active ✓
- HIPAA-Ready Data Handling — Active ✓
- Two-Factor Authentication — toggle
- Biometric Login (Face ID / Touch ID) — toggle
- Active Sessions list — device, location, last active

Convex Data Model

Every screen's data flows through Convex queries and mutations. Here's the complete data model powering the app.

CORE TABLES

TABLE	KEY FIELDS	CREATED BY
profiles	role, firstName, lastName, phone, ageGroup, textSize, highContrast, onboardingComplete	Onboarding Step 5
careRecipients	name, careType, avatarEmoji, conditions	Onboarding Step 3 or /care-recipients
careLogs	recipientId, type, title, notes, timestamp	/care-log/new
medications	recipientId, name, dosage, frequency, timeOfDay, instructions, active	/medications
schedule	recipientId, type, title, description, date, startTime, endTime, completed	/schedule
messages	recipientId, content, senderId, timestamp	/messages
timeEntries	recipientId, clockIn, clockOut, active	/time-tracking

API CALLS BY SCREEN

SCREEN	QUERIES (READ)	MUTATIONS (WRITE)
Onboarding	—	profiles.create, careRecipients.create, profiles.completeOnboarding
Dashboard	profiles.get, dashboard.stats, careLogs.listRecent, careRecipients.list	—
Care Recipients	careRecipients.list	careRecipients.create
Log Activity	careRecipients.list	careLogs.create
Medications	medications.listAll, careRecipients.list	medications.create, medications.toggleActive
Schedule	schedule.listToday, careRecipients.list	schedule.create, schedule.toggleComplete
Messages	messages.list, careRecipients.list	messages.send
Time Tracking	timeEntries.getActive, timeEntries.list, careRecipients.list	timeEntries.clockIn, timeEntries.clockOut
Settings	profiles.get, auth.currentUser	profiles.update

AUTHENTICATION FLOW

- **Provider:** Convex Auth (space-auth mode) — email/password with email verification
- **Sign Up:** Name + Email + Password → verification code sent → verified → auth'd
- **Sign In:** Email + Password → auth'd
- **Route Guards:** ProtectedRoute (must be auth'd) → OnboardingGuard (must have completed onboarding) → AppLayout
- **PublicOnlyRoute:** If already auth'd, redirects away from /login and /signup
- **Test Mode:** When VITE_IS_PREVIEW=true, a "Continue as Test User" button appears on login/signup for instant access

SUBSCRIPTION TIER GATES

FEATURE	FREE	PLUS (\$9.99)	PRO (\$24.99)
Care Recipients	1	3	Unlimited
Ivy Chatbot	—	Care tips & quick help	24/7 deep support
MyChart / FHIR	—	—	✓
Calendar/Email Sync	—	✓	✓
Ads	Leaderboard + sidebar + inline	—	—
History	7 days	Unlimited	Unlimited

Ad placements: AdBanner (leaderboard on dashboard), SidebarAd (sidebar bottom), InlineAd (schedule page). All hidden for Plus/Pro subscribers.

Figma Storyboard Setup

Recommended frame structure for building the Nurtura storyboard in Figma. Create one frame per screen, connected with flow arrows.

RECOMMENDED FRAME LAYOUT

SECTION	FRAMES	SIZE
Row 1 — Public	Landing (full scroll) · Sign Up · Email Verify · Login	375×812 (mobile) or 1440×900 (desktop)
Row 2 — Onboarding	Step 0: Welcome · Step 1: Profile · Step 2: Accessibility · Step 3: Recipient · Step 4: Meet Ivy · Step 5: All Set	375×812 or 1440×900
Row 3 — Core App	Dashboard · Care Recipients · Recipient Detail · Log Activity	1440×900
Row 4 — Manage	Medications · Schedule · Messages · Care Providers · Time Tracking	1440×900
Row 5 — Account	Settings · Integrations · Subscription · Security	1440×900

DESIGN TOKENS

TOKEN	VALUE	USAGE
Primary	#3D7A5F (sage green)	Buttons, icons, active states, progress bar
Primary Light	#E8F5EE	Selection card backgrounds, tier badges
Background	#FFFFFF	Card backgrounds, page bg
Muted Background	#F4F4F5	Input fields, empty states, chat bubbles
Ink	#09090B	Primary text, headings
Muted	#71717A	Secondary text, descriptions
Border	#E4E4E7	Card borders, dividers
Border Radius	12px (cards), 20px (pills), 50% (avatars)	All rounded elements
Font	Inter	All text — weights 400, 500, 600, 700, 800

COMPONENT LIBRARY CHECKLIST

- Button (primary, outline, ghost) — 44px height, full-width variant
- Input (text, email, password, tel) — 44px height, placeholder style
- Selection Card (role, age, care type) — border-2, selected state with check
- Emoji Picker — row of 8 circular buttons, selected state with ring
- Progress Bar — 6-segment, filled/unfilled states
- Chat Bubble — bot (leaf avatar, left-aligned) and user (right-aligned)
- Stat Card — icon badge, title, large numeral
- Sidebar — logo header, nav groups, user footer with dropdown
- Dialog/Modal — header, body, footer actions
- Toggle Switch — on/off for accessibility options
- Ad Banner — leaderboard (728×90), sidebar (300×250), inline (468×60)
